Jacob Rosey

EDUCATION

Community College of Allegheny County – *Software Development, A.S.*

January 2020 – November 2021, Pittsburgh, PA

Attended classes and completed coursework online and in-person while working full-time. Relevant coursework included Data Structures and Algorithms (C++), Object-Oriented Programming (Java), Database Systems (SQL), Networking, Systems Analysis and Design, Web Development, and Android Development.

SKILLS

- ✓ SQL
- ✓ HTML
- ✓ CSS
- ✓ Javascript
- ✓ Node.js
- ✓ Git
- ✓ Java
- ✓ SCSS (Sass)
- ✓ Bootstrap
- ✓ Responsive Design
- ✓ Accessibility
- ✓ SEO

EXPERIENCE

Simple.biz

Web Designer/Developer; May 2022 – July 2022

Designed, built, and maintained client websites using platforms such as Duda, Wix, and Wordpress. Some HTML/CSS/Javascript was required. Utilized SEO practices to improve client website's search engine ranking. Left much sooner than I intended due to extenuating circumstances.

Web Scraping Application

<https://trine-scrapers.herokuapp.com/>,
https://github.com/JacobRosey/Trine_Reminder

I built this progressive web app because I was tired of navigating through the Trine University website. If I wanted to see when my sister's next softball game was, then check her stats, then see news articles about the team, I had to click through a bunch of links. I decided I would just make my own site that has all of that information easily accessible through an app on my phone.

Since I'm the only person using the site, I didn't bother putting too much effort into the design; I just made sure it was viewable across screen sizes. This was also before I started using bootstrap. The biggest obstacle I ran into was the asynchronous code that gathered all of the players' stats (index.js).
